PROFILE

Highly motivated and skilled fresher. Possesses a solid foundation in programming languages and eager to apply theoretical knowledge in real-world projects. Strong problem-solving abilities coupled with a passion for continuous learning growth Seeking opportunities to contribute in teams.

EDUCATION

PG Diploma in Big Data Analytics

CDAC, Kharghar
03/2024 – 08/2024

B.TECH

MBES Collage of Engineering, Ambajaogai
07/2019 – 06/2023

SKILLS

- Programming: Python, Java
- DBMS: MySQL, MongoDB
- Big Data Technologies: Hadoop, spark, Hive
- Cloud Computing: AWS
- Operating Systems: Linux
- Machine Learning & AI: Supervised & Unsupervised Learning, deep learning
- Data Visualization: Power BI, Tableau

CERTIFICATIONS

- SQL
- Python
- Power BI
- CI/CD For beginner's
- Docker
- Flask Python

PROJECTS

Google Analytics Customer Revenue Prediction

CDAC | 08/2024

- Built a machine learning model to predict customer revenue using Google Analytics data.
- Performed data preprocessing, feature engineering, and EDA on over 900K records.
- Deployed the model using Flask, Docker, and Azure Cloud.
- Stored predictions in MySQL and created interactive dashboards using Power BI.

Student Portal Management System

CDAC | 05/2024

- Developed a web-based Student Portal using Flask and MySQL for managing student records and marks.
- Implemented secure user authentication with role-based access control for admins and students.
- Enabled students to view marks and ranks, while admins can add, edit, and delete records.
- Designed a user-friendly interface using HTML and CSS templates.

Spotify Analysis and dashboard using Power BI

05/2025

- Analyzed Spotify listening data to identify trends in albums, artists, and tracks over time.
- Visualized user behavior patterns across weekdays, weekends, and peak hours using heatmaps and quadrant analysis.
- Built an interactive Power BI dashboard with drill-through, hierarchies, and exportable detail grids.
- Provided insights to support personalized experiences, content strategy, and data-driven marketing.
